Citroen/Peugeot 2.0 Litre 135bhp RepSet & DMF clarification

Manufacturer:
Citroen
Peugeot

Model:
C4, C5
307, 407, 607, 807

LuK AS Part No:
415 0225 10
415 0320 10

This bulletin is to clarify the catalogue listing for the above vehicles and the compatibility between RepSet and Dual Mass Flywheel. DMF part number 415 0225 10 with RepSet 624 3231 00 is fitted to vehicles built prior to Sep 2006. For vehicles built after October 2006, DMF part number 415 0320 10 and RepSet 624 3267 00 must be used. As not all VRM databases show accurate build dates this may cause compatibility issues if only the RepSet is required.

The difference between the two DMF's is the pot depth as shown above, therefore if the incorrect RepSet is fitted then the clutch will not operate correctly.
