

## Renault Dual Mass Flywheel 415 0202 10 Locking plug

This Technical information affects Renault Laguna 1.9 DCi Mk2 with chassis codes KGOG, KGOR, BGOG and BGOR. Also the Renault Espace 1.9 DCi Mk4 with chassis codes JKOU and JKOG.

Dual Mass Flywheel part number 415 0202 10 is supplied with a locking plug in place as highlighted below. This locking plug will prevent the secondary mass turning within the primary mass prior to fitment to allow the fitment of the Flywheel to crankshaft bolts. The locking rivet must not be removed prior to fitment, once fitted and the engine run the rivet is designed to shear and the DMF will operate as normal.
