Transporter T4 / 850, 940, 960, S70 Mk I,
V70 MK I

COTB 0013

FWP 1710

The above water pump **FWP 1710** fits vehicles with an 18 tooth pulley.

Please ensure that you check this is the correct part before fitting. Failure to fit the correct part can cause serious engine damage. It may not be immediately apparent that the incorrect pump has been fitted and the vehicle may run for a few thousand miles before the timing belt fails and causes major engine damage, resulting in a large warranty claim.

If you require a 20 tooth pulley please look at **FWP 1515**
