

FORD SPORT KA 1.6i 2003-2009

FCA6002 & FCA6003

It should be noted that different wishbones are fitted to Sport Ka vehicles with Power Steering.

The correct wishbones for this application are FCA6002 and FCA6003.

Wishbones FCA6565 and FCA6566 are for use only on non-power steering versions.

Whilst the wishbones look similar to the naked eye, there are dimensional differences which will have a radical effect on the steering geometry of the vehicle and compromise both vehicle handling and tyre life.
