

## VOLKSWAGEN TDi Hydraulic Lifters.

In line with Volkswagen Original Equipment, Federal-Mogul have introduced a new Hydraulic Lifter FOL175 (OE 038 109 309C) for use with all PDi (Pumpe-Düse) engines.

F-M catalogue CATAE403 does not reflect the latest developments with Original Equipment and the following amendments are necessary.

Where the catalogue lists FOL114 (OE 038 109 309A/B) for use with CAM672 (OE 038 109 101R) it is necessary to replace with new Hydraulic Lifter FOL175 (OE 038 109 309C)

For all SDi engines FOL114 (OE 038 109 309A/B) is suitable.

FOL114
