

043764 / 043765 Headlight Levelling Switch Malfunction

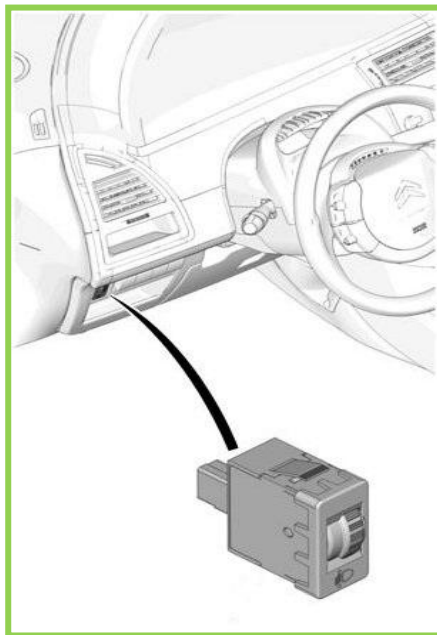

Part Number: 043764 / 043765

For Vehicle: Citroen C4 Mk1 2004-2011 (For vehicles with halogen headlights and manual headlight levelling).

The Valeo Service Technical department have had several claims stating that after fitment of headlight units 043764 (nearside) and / or 043765 (offside) the headlight levelling system has malfunctioned (fault code: 0041), resulting in the service light illuminating.

After investigating the issue Valeo technicians have identified that the headlight itself is not at fault and the cause is actually a faulty ashtray light.

To fix the problem, it is recommended to renew the ashtray light.

The headlight levelling switch above has malfunctioned due to the faulty ashtray light.
