## Transit Conversion Kit Applications

Valeo Service (UK) produce three conversion kits for Ford Transits, depending on the model of the vehicle and type of gearbox used.

### Solid Flywheel Conversion Kit 835000 can be fitted to:

2.4 Transits built between 01/00 and 03/2006 with a 5 speed gearbox (MT75), **NOT** the 6 speed gearbox (MT82). The earlier Transit (01/00 – 03/06) used a different design of headlights and body type. An example of a Transit built between 01/00 > 04/06 is shown below.

Transit 2000 – 2006

The solid flywheel conversion kit 835000 can also be fitted to several other applications. These are:

LDV									
Convoy									
2.4TDi 16V	2402	66 90	24TDi-90	MT75	03/02 - 02/05	826648 KIT 3P 11, SAT 835000 KIT 4P 826700 SERVICE KIT	  	250 250/23	
LONDON TAXI									
TX2									
2.4D	2402	55 75	F4FA	MT75	03/02 -	826648 KIT 3P 11, SAT 835000 KIT 4P 826700 SERVICE KIT	 	250 250/23

| 835000, 835057, 835060

## Transit Conversion Kit Applications

**Solid Flywheel Conversion Kit 835057 can be fitted to:**

2.4 Ford Transits built from 04/06> with a **100 bhp engine and a 5 speed (MT75) gearbox**.

Below is an image of a 04/06> Ford Transit.

Transit 04/06>

If the 2.4 Ford Transit is built from 04/06> with a **115 bhp engine and is fitted with a 6 speed (MT82) gearbox**.

MT82 (6 speed)  
gearbox

**Solid Flywheel Conversion Kit is 835060.**

**835060 DOES NOT** come with a CSC (concentric slave cylinder).

## Transit Conversion Kit Applications

### What is in 835000 and 835057 conversion kits?

Valeo Technical also receive calls enquiring what is contained in the conversion kits. Below is a photograph of a kit with each part labelled and arrowed. Every part in the kit is to be used to ensure a correct fitment and operation. Before fitment of the flywheel conversion kit, please ensure the friction surface area on the flywheel and the pressure plate are fully degreased so clutch slipping or juddering issues do not occur once fitted.

The release arm **MUST** be replaced when fitting 835000 to ensure correct operation of the release mechanism. Ford OE ref. 4412069 must not be used, only use Ford OE ref. 4401551. An equivalent of this arm is supplied in the kit.
